Robert Ziprick, Councilmember

COUNCIL AGENDA: July 22, 2003

TO: City Council

VIA: Dennis R. Halloway, City Manager 

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer 

SUBJECT: Amending Professional Engineering Services Contract to Lim & Nascimento Engineers (LAN Engineering) for Mt. View Avenue Bridge Widening

RECOMMENDATION

It is recommended that the City Council approve the amending of the Professional Engineering Services Contract with LAN Engineering to increase the fee services by \$24,800 to provide additional design for the pedestrian access tunnel under Mt. View Avenue at San Timoteo Creek.

BACKGROUND

On April 4, 2002, the City Council awarded a contract to LAN Engineering in the amount of \$210,630 for the design of Mt. View Avenue Bridge widening at Union Pacific Railroad and San Timoteo Channel. At the time, funding was not available for the construction of the project. On May 6, 2003, the City received an approval of \$4,551.496 grant from the Federal Highway Bridge Replacement and Rehabilitation Program (HBRR) for the construction of these bridges. The HBRR funding in addition to the \$1 million HUD grant, \$1.5 million TEA 21 grant and local match will be adequate to construct additional pedestrian access tunnel at the San Timoteo channel. This pedestrian access tunnel will provide a linkage for the pedestrians utilizing the existing San Timoteo Channel's trail to the east and west of Mt. View Ave. Bridge.

FINANCIAL IMPACT

Funding for this project has been budgeted in Account Number 28-3300-8873.
